DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-31 are rejected under 35 U.S.C 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1,13,14,21: Claims lack storage on a medium which enables any underlying functionality to occur. For such claims to be statutory they must be embodied within a tangible computer medium such as hard drives or some other computer hardware form. Claims 2-12,15-20,22-31 depend from claims 1,13,14,21 and therefore are rejected under the same rationale.

Response to Amendment

The previous grounds of rejection under 35 U.S.C. 112, second paragraph is withdrawn in view of Applicant's Amendment filed 7/10/08. However, Examiner has discovered new grounds of rejection during the examination. See new rejection above.
